

ABIGAIL WARNER

PERSONALISED
WRAPPING PAPER

CHRISTMAS 2021

DESIGN, SUSTAINABLY

We wanted to assure you of our commitment to sustainability.

In our studio, sustainability means reducing our environmental impact across the business, wherever possible.

All of our products are designed, manufactured and distributed in England, using a sustainable supply chain and all of our papers and packaging are fully recyclable.

Our manufacturing processes include only using paper from responsible sources and archival inks that will last a life time, if you choose to re-purpose your wrapping paper into framed prints and other keepsakes.

For each roll of wrapping paper ordered - we plant two trees with One Tree Planted - which means each year we can plant thousands of trees across the world.

We are constantly looking to improve - you can find out more about our mission on our website www.abigailwarner.com/sustainability

SUSTAINABLE BUSINESS
